

Year 11 Maths

Parent information

Intervention	Information
Form time revision	Pupils who need some extra support (based on the November Numeracy exam results) have been put into focus groups and have a Maths teacher delivering a revision programme during form time.
Wednesday Past Papers	On a week A, pupils will be given the paper to complete at home by the Friday of that week. On a week B, pupils will start a past paper during lesson 5 and will be given it to complete for home learning by the Friday of that week. It is important that these are completed by the Friday because they will be looking at them during Friday's lesson.
Mathswatch online	All Pupils have access to the Maths Watch online website and they will be set tasks each week. The tasks will follow a revision plan and we will be monitoring their progress: vle.mathswatch.com
Fix it Friday	Fridays will be used for skills tests and to revisit topics that the pupils have found difficult. The pupils will be given a skills test every three weeks and will spend the Fridays in between working on the topics that they have found difficult. Students will also be given the opportunity to discuss any questions from the past papers that they have completed for homework.
Tuesday Revision	There will be revision on every Tuesday after school.
